SKILLS

- Client - HTML5, CSS3, **JavaScript**, **TypeScript**, **React.js**, Next.js.
- Backend - **Node.js**, Express.
- State Management.
- Database.
- Responsive Web Design.
- API Integration.
- Version Control (**Git**).
- Communication and Collaboration
- Continuous Learning.

EDUCATION

CODING ACADEMY

FullStack Bootcamp.
2022.

EXPERIENCE

FULL-STACK DEVELOPER - VOLENTEERING

Butterfly Button

Nov-2022 - Present

- Stack - React.js, JavaScript, Node.js, **Firebase** - Cloud Firestore and Authentication API
- Developing a complete web application that processed, analyzed and visualized data.
- Created and designed user-friendly interfaces to facilitate seamless interaction with the applications and minimize the possibility of human errors.

PROJECTS

LINKEDIN CLONE   DEMO   CODE

- Stack - JavaScript, React.js, **Redux**, Node.js, Express, MongoDB, **Socket.io**.
- Developing a fullstack web app replicating key features of Linkedin. I utilized HTML5, SCSS, and JavaScript on the frontend, I employed Node.js and Express on the backend, designing **RESTful APIs** and integrating a database system for efficient data management (MongoDB). The project emphasized scalability and performance optimization.

MONDAY.COM CLONE   DEMO   CODE

- Stack - **JavaScript**, **Vue.js**, Vuex, Node.js, Express, MongoDB.
- As a Fullstack Developer, I built a web application with **Vue.js** on the front end and **Express** on the backend. Using Vue.js, I developed a dynamic and intuitive user interface, leveraging Vue Router for seamless navigation. On the backend, I implemented Express to create RESTful APIs for project management, task tracking, and collaborating features. I focused on performance optimization, conducted thorough testing, and ensured data integrity. Collaborating with the team, we successfully delivered the Monday.com Clone, meeting project goals, and timelines.
